[From our Extra of Yesterday.]

Arrival of the Richardson.

Capture of Fort Henry.

Rebels in Full Flight

Martial Law in California.

The schooner W. L. Richardson, Capt. Collins, arrived at 11 o'clock this morning, bringing dates to the 9th inst.

Martial Law has been declared in California.

WASHINGTON, Feb. 6.

The Louisville (Ky.) papers publish Southern accounts of the battle at Somerset. The lowest estimate any of the rebel soldiers put their loss at is 1000, and some say 1500, the majority of whom were drowned crossing the river.

St. Louis, Feb. 7.

An attack by the Federal troops on Fort Henry, in Tennessee, on the Tennessee River, is expected.

The Federal force is 22,000 strong, and that of the rebels 15,000.

Beauregard is said to be in command of the rebels.

The expedition had arrived near enough to the fortifications to see the enemy's pickets.

Several shots were fired from the rebel fort, one ball striking the Federal gunboat Essex, but doing no damage.

Generals Grant, McClernand and Cook, are in command of the land forces of the expedition.

St. Louis, Feb. 8—3 P. M.

We have positive intelligence that Fort Henry, on the Tennessee River, in Tennessee, surrendered to the Federal troops yesterday.

Everything in the Fort was surrendered to the Federal troops.

St. Louis, Feb. 8—5:40 P. M.

The Federal victory at Fort Henry, yesterday, was complete. The fight lasted for one hour and a quarter, and was conducted entirely by the gunboats connected with the expedition. One of the boats received a shot in its boiler, causing it to explode, the explosion killing 32 persons.

The infantry portion of the expedition did not arrive at the fort until after the surrender.

The prisoners taken by the Federals were two rebel Generals and one Colonel, two Captains and one hundred soldiers.

The fort mounted seventeen guns, and the surrender was unconditional.

By this victory the Federals have obtained control of the Memphis and Ohio railroad, which is now in their possession. The Federal Infantry, at last advices, were in hot pursuit of the scattered and fleeing rebel forces.

The rebels made a determined resistance. The fight lasted an hour and twenty minutes, and was conducted on our side entirely by gunboats, the land forces not arriving in time at the scene of action. They came up two hours after the rebel flag was hauled down.

The rebel infantry, to the number of four or five thousand, who were encamped outside the fortifications, fled early.

NEW YORK, February 7.

A special dispatch says the rebels have evacuated Romney, Va.

BOSTON, FEB. 8.

The ships Ocean Pearl, Idaho, and North America, with troops and stores, forming part of Butler's Expedition, sailed this morning for Ship Island.

WASHINGTON, Feb. 8.

Erie's gunboat is in great favor here, and will be thoroughly tested by the Naval Department.

The legal tender clause to the Treasury note bill is before the Senate Finance Committee to-day. It is thought a majority will be against it.

A dispatch from Fort Henry says that the Federal troops have been sent out in pursuit of the rebels.

NEW YORK, Feb. 6.

A respite has been granted in the case of Gordon, the slaver, the execution being postponed until the 21st.

Arrival of the Sheet-Anchor

The bark Sheet-Anchor Capt. Sayward, with dates to the 14th inst., arrived at 11 o'clock.

NEW YORK, Feb. 13.

The Treasury notes are made a legal tender by Congress.

The Fortification of the Lakes Bill has passed the Senate.

Great alarm prevails at Norfolk, Va. An attack from Gen. Burnside is momentarily expected.

A newspaper correspondent reports sickness among the allies in Mexico to be frightful. Miramon, on arriving at Vera Cruz from Havana was arrested by the British Admiral for the former robbery of the British Legation in Mexico.

The rebel steamer Victoria sailed from Havana on the 7th with a cargo of arms and ammunition.

The steamer Columbia brings a statement that President Juarez had proposed terms of peace to the allies, which were accepted.

Heavy cannon will be cast in California.

BALTIMORE, Feb. 13.

The reported bombardment of Fort Pickens is a humbug, which was originated by Southern rebels.

COLUMBUS, Ohio, Feb. 13.

The latest advices from Cumberland, Maryland, state that Lander was twenty miles on the other side of Romney.

Gen. Banks had moved his column, so as to cut off the retreat of the rebels.

General Lander is said to have 25,000 men and Banks 11,000; while the enclosed rebel forces amounts to 22,000.

Gen. Lander believes the whole rebel column will be taken or scattered.

The steamship Baltic, from Port Royal, brings 700 bales cotton.

The gunboats had shelled out a fort on Pine Island, and made an advance towards Blufftown, where there is a large force.

Another account says that an expedition left on Monday, including all the gunboats and transports, sufficient for the shipment of twelve thousand troops, which will go through Colibogue Sound into Savannah River, without coming in range of the guns at Fort Pulaski.

The rebels have withdrawn a large number of troops from Charleston and Port Royal to Savannah.

The Allied Commissioners had returned to Vera Cruz from the city of Mexico. The Mexican Government had insisted upon the withdrawal of the Spanish forces, but would accept the intervention of France and England.

PHILADELPHIA, February 13.

The correspondent of the *Inquirer* says that the Committee for the Conduct of the War express themselves satisfied with the course of Fremont. The Secretary of War has pledged his word to give him a command.

St. Louis, Feb. 13.

A Fort Henry correspondent of the *Republican* says the late gunboat expedition on the Tennessee River was greeted everywhere with the wildest enthusiasm. Prominent men came to the boats and said should the Union army enter Tennessee 50,000 men were ready and would cluster around it.

Officers of the gunboats say it is impossible to doubt the genuineness of such greetings.

At Columbus, numerous articles are copied from Southern papers, asking the Confederate Government to take measures to keep the soldiers in service, as their terms of enlistment are expiring, and they are becoming demoralized.

The Federals under Burnside have taken Roanoke Island.

Brig. Gen. Charles P. Stone has been arrested and sent to Fort Lafayette, supposed on account of the Ball's Bluff disaster.

The House Committee on the District of Columbia reported to-day the bill abolishing slavery in the District, limiting compensation to loyal slave-holders to \$300.

ROLLA, Mo., February 13.

A messenger from Lebanon reports that Sigel's division had arrived at Marshfield, four miles from Springfield, on Tuesday. Price is reported to have left Springfield, and is now encamped near the battle ground at Wilson's Creek.

CINCINNATI, Feb. 13.

A gentleman who arrived from Green River yesterday, reported that 35,000 Federals had crossed the river, up to the time he left.

EUROPEAN.

The French Gov't has decided to send an additional force of 8000 men to Mexico. This is decided in consequence of the pretence of Spain, who refuses to act in concert with the Allies, and seems inclined to carry on the war for her own special benefit.

It is also stated that formal overtures have been made to Austria, offering to bestow the throne of Mexico on the Archduke Max.

Napoleon will not interfere in American affairs so long as neutral rights are respected.

Senator Cowan has received information from a reliable source in Paris that Napoleon at the approaching session of the French Chambers will urge a peaceable or armed intervention in American affairs. Government advices are exactly the reverse.

For continuation of the news see third page.

Conveyances, leases, &c., drawn up at reasonable rates.

MISCELLANEOUS.

ROYAL MAIL

Steam Packet

Company's Agency,

For British Columbia & Vancouver Island.

OFFICE, MACDONALD & CO., BANKERS,
Yates Street.

THE ATTENTION OF SHIPPERS and passengers is respectfully solicited to the superior facilities the Royal Mail Steam Packet Company's Line affords for the speedy conveyance of Treasure, Goods and Passengers to and from England to British Columbia and Vancouver Island. In connection with the Pacific Mail Steamship Company's Vessels and the Panama Railroad, the superiority of the accommodation and entertainment on board the Royal Mail Steamers, together with the time occupied on the passage between England and Aspinwall, direct, being so much shorter than by any other route, and the moderate rate of passage money, render this Company's steamers the CHEAPEST AND MOST EXPEDIENT MEANS OF TRANSIT, for passengers or for the forwarding of Goods and Treasure from Aspinwall to Europe. Under an arrangement with the PACIFIC MAIL STEAMSHIP CO., Specie and Bullion can be conveyed to London and Havre in France, covered by Insurance, for delivery to the Agent of the Royal Mail Steam Packet Company at Panama.

An arrangement also exists for the transmission by Express to and from Aspinwall, of measurement goods, jewellery and plate. Merchants in the North Pacific will find it to their advantage to instruct their correspondents to ship all their Higher Class Freight from Europe by this Line, and to those concerned in the trade with Havana, the facilities afforded by the Royal Mail Steam Packet Company's Steamers in conveying Merchandise, such as Cigars, &c., through to Panama, without the necessity of the intervention of an Agent, is especially convenient. Arrangements can be made for the shipment of Gold, Silver and Copper Ore, Furs, &c., to Europe from Aspinwall, by the Company's steamers, on favorable terms.

Further information on the subject of Freight, Passage Money, and the general arrangement of the Company, will be furnished by the undersigned.

pleasure in informing their numerous customers throughout British Columbia that they have imported at considerable expense a Patent Packing Press, and all goods intended for (freight) will be packed by our Press FREE OF EXTRA CHARGE. The advantages to those purchasing goods from us and getting them packed by our Press are twofold: First, there is fully one-half saved in steamboat freight—a package of 100 lbs. of dry goods or clothing packed with our Press will measure about two cubic feet, while the same quantity packed in the ordinary manner will measure from three to four cubic feet. Secondly, the packages being solid, compact, and of small dimensions, can be handled with greater ease by the packer, and carried much more comfortably by the pack animal.

Wednesday Morning, Feb. 26, 1862.
The News.

The news by arrivals yesterday is rather interesting. From China, via San Francisco, comes the intelligence that the Taiping rebels had captured Ningpo. They came from the Fouchow district and captured Ningpo without much difficulty, storming it in a very respectable manner. Turning from the Celestial Empire to Mexico, advices though somewhat conflicting appear to give ground for the conclusion that President Juarez has made peace with the Allies. It is not at all improbable that such is the case, as it would be a physical impossibility for Mexico in its present distracted condition to oppose successfully the combined naval and military forces of France, Spain and England. From Colorado there comes a report that 3,900 Confederates in Arizona, under Gen. Sibley, were marching on Fort Yuma. If successful in conquering the Federal forces at that point, it was supposed that they would enter California with the hope of being reinforced by Secessionists in that State. This news requires confirmation; yet there are far more improbable things. The policy of President Davis may be to create a civil war in California, or if nothing else served his purposes, to establish a Pacific Republic. The Cariboo fever appears to prevail as extensively as ever in California. Some of the papers are trying to dissuade their readers from going; but from their despondent tone, we conclude that they are laboring in vain. At the seat of war in the States, with the exception of the capture of Roanoke Island on Albemarle Sound, on the coast of North Carolina, by Gen. Burnside, and the capture of Fort Henry, on the Tennessee river, nothing very important has occurred. The Federals appear to be obtaining some substantial successes in Tennessee. It may, however, be doubted whether 50,000 Tennesseans can be found to join the Union cause. Yet the example of Kentucky may be followed. Gen. Butler's expedition had sailed for Ship Island—an Island on the coast of Mississippi, once noted as the rendezvous of the filibusters under Lopez, who made an unsuccessful descent on Cuba. The expedition is probably directed against New Orleans.

[CONTINUED FROM OUR FIRST PAGE.]

Additional by Sheet Anchor.

WASHINGTON, Feb. 9.

A special Washington dispatch to the New York papers states that letters from the liberal party in England—Bright, Cobden, the Duke of Argyll, and others, say that unless something effective be done speedily the South will be recognized.

Morrill's bill is to be reported to the Senate Committee. It provides for the immediate emancipation of all slaves in the District of Columbia with compensation rated on the average of \$300 each slave to royal masters.

On Thursday, a scout reports that Price in Missouri made a speech to his troops, telling them that they were surrounded, and must fight or surrender. All were decided to fight. It is said that he has been heavily reinforced from Arkansas, and has collected large supplies of provisions.

NEW ORLEANS, Feb. 8.

Nearly 500 prisoners left yesterday for the North to be exchanged.

ST. LOUIS, Feb. 9.

Nine hundred prisoners of war were sent to the Alton Penitentiary from here to-day.

WASHINGTON, Feb. 13.

The Treasury Note Bill, with the legal tender clause, and provision for the payment of interest of the public debt in coin, passed the Senate to-day, with amendment for depositing with the Treasury \$25,000,000 at 5 per cent.

The New Orleans Bulletin of the 28th ult. says that the reported burning of the steamer Calhoun is incorrect. When she was abandoned, her Captain fired her, but it appears that the Yankee shortly afterwards extinguished the flames and took possession of the boat and cargo, which consists of 5,000 pounds of powder and 10,000 pounds of saltpetre.

A Richmond dispatch, speaking of the capture of Fort Henry, says that it was a foregone conclusion that the Federals could take it whenever they thought proper. It also says that the destruction of bridges across the Tennessee River, although productive of some inconvenience, is no matter of any great detriment to their cause.

WASHINGTON, Feb. 10.

The Senate bill authorizing the issue of ten million demand notes, unanimously passed.

PHILADELPHIA, Feb. 10.

General Stone passed through this city last night, in custody, en route for Fort Lafayette.

In the Senate to-day, the Vice President presented a communication from a meeting of citizens in North Carolina, held at Hatteras, Jan. 10th, in regard to the rejection of Foster, their Representative, insisting on his right to be the Representative of the loyal citizens of North Carolina.

Mr. Davis presented a petition from citizens of Maine, asking Congress to drop the negro question and attend to the business of the country.

Orders have been issued prohibiting any furloughs. All the officers are ordered to return to their regiments.

Gen. Lane will probably be nominated a Major General.

ST. LOUIS, Feb. 10.

Special Cairo dispatches say that the army is still encamped at Fort Henry. Preparations for future movements go vigorously forward. The river is high; part of the fort overflowed.

The panic is so extensive in Tennessee that the river may be considered open for Union fleets to the headwaters.

The late garrison of Ft. Henry have taken refuge at Fort Donelson, 12 miles distant, on the Cumberland River, making the force there 7000 or 8000 men.

A Southern mail has been captured, containing letters from high officers in the Confederate army, speaking of the demoralizing effect of the defeat at Somerset—stating that another disaster at Fort Henry would be almost irreparable.

The gunboats Lexington and Conestoga have been sent up the Tennessee River, and will probably go as far as Florence, Alabama. The rebel steamer Orr being chased by them, was fired and abandoned. It is reported that other rebel boats had been captured.

LEAVENWORTH, Feb. 10.

Martial law has been declared throughout the State of Kansas. The general commanding declares that "jayhawking" shall be put down by strong summary process.

Joseph Holmes, Secretary of New Mexico, has just arrived, and brings information that the Rebel Brigadier Gen. Sibley, with 2500 Texans, with artillery, were within 30 miles Fort Craig. Active preparations have been taken to oppose them.

An express sent to Denver City states that reinforcements had been sent, and martial law proclaimed in the Territory. All able-bodied men are to be drafted to serve in the militia, and all mules, horses, and ammunition in the Territory have been seized for the use of Government.

CHICAGO, Feb. 10—2:25 P. M.

Intelligence from Fort Henry, Tennessee, states that the gunboat Carondelet had made a reconnaissance up the Tennessee River on Saturday, as far as Danville, where they found but one family in town. The inhabitants were all deserting there.

Quarters had been built for rebel troops at Danville, where was found a large quantity of arms, supplies, commissary stores and wagons. The bridge at that point was destroyed, to prevent the passage of trains.

The value of property captured at Fort Henry, Tenn., is estimated at over a million of dollars.

A special dispatch says that Gen. Thomas' division has made a forward movement, and will invade East Tennessee at three different points simultaneously. Gen. Carter goes through Cumberland Gap, Gen. Schoepf by way of the central route, and Gen. Thomas, with two brigades, via Mill Springs. They will advance immediately on Knoxville, where they will take possession of the railroad, cutting off supplies and ammunition with the rebel government.

WHEELING, Feb. 13.

The Constitutional Convention this morning adopted the following as article one of the fundamental provisions of the constitution of the proposed new State of Western Virginia, with the understanding that this action should be the settlement of the vexed question:

"No slave shall be brought, or free person of color come, into this State after this constitution goes into operation."

This provision will secure a large majority for the constitution.

CHICAGO, Feb. 7.

A dispatch from Fort Henry says that the Federal troops have been sent out in pursuit of the rebels, early in the fight, leaving one artillery company to defend the fort. The fort mounted 17 guns—mostly 32 and 24 pounders—all of which, together with large numbers of muskets and a large amount of ammunition, tents and camp equipment, fell into the hands of our troops. During the action, 31 shots struck the Cincinnati, 7 struck the St. Louis, 14 the Essex, and 3 struck other boats that were engaged in the action. They were within 300 yards of the fortifications at the time of the surrender. The Essex was disabled by a round shot passing through her forward part into the boiler. She reports 26 killed, wounded and missing.

In the evening our forces found three 6-pounders and five rifled pieces in the woods, which the escaping rebels attempted to carry off. The rebel loss is not definitely known; only six of their dead have been found. General Smith, on the west bank of the river, captured a whole camp of two regiments. The Cincinnati had only one man killed and eight wounded. Our total loss cannot exceed 40 killed and wounded. The land forces have taken possession of the Memphis and Ohio railroad 15 miles above the fort.

WASHINGTON, Feb. 12.

The Committee on Ways and Means have decided to make an appropriation for the support of the Overland Mail.

The Senate has unanimously rejected the nomination of Quartermaster Butler. [A. J. Butler, of California.]

The great Sawyer gun burst yesterday at Fortress Monroe, killing two and wounding five.

Mr. Latham introduced a bill in the U. S. Senate relieving California ports from the operations of the three months Bonded Warehouse Act.

A rumor was in circulation yesterday at Norfolk, that the defeat at Roanoke Island was owing to the treachery of the North Carolina regiment.

PHILADELPHIA Feb. 7.

Most of the rifles, and a considerable quantity of ammunition from the wrecked steamer City of New York, from Burnside's expedition, have been recovered uninjured.

The rebel troops at Norfolk are being rapidly sent South. Drafting will commence in the rebel States on the 1st of March.

Beauregard is at Nashville.

Bishop Ames and Hamilton Fish will not be received by the rebel Government.

ST. LOUIS, Feb. 9.

General Halleck has been petitioned by several professed Union men for a commutation of the sentence against Northern Missouri bridge burners, but they have not met with any success thus far.

BOSTON, Feb. 6.

Great activity prevails in getting off General Butler's expedition. Several vessels are already loaded, and others loading with troops and stores. Probably all the vessels will sail the present week. Gen. Butler's entire command consists of about 10,000 men.

EUROPEAN.

HALIFAX, Feb. 10.

The America's advices contain certain vague rumors that Napoleon has announced that he will shortly officially demand joint action in raising the blockade of the Southern ports of the United States.

If England refuses to take part he will take the initiative alone.

The Emperor's speech to the corps Legislatif on the 24th was expected with great interest, under the belief that he would say something important on American affairs.

The London Times, in an editorial, says: "We need not be eager to meddle between the North and South; this is the time for waiting. If there does come any real cause for complaint it will tell all the more for our present forbearance."

The London Globe editorially remarks that the maritime powers cannot be expected to respect the Federal blockade unless it is really effective. The commerce of the world cannot suffer itself to be despoiled for an indefinite period under a mere paper blockade. "As to intervention," says the Globe, "we may be invited or offered to intervene, but our great aim must be to preserve consistency with our principles."

A letter is published from Seward to Smith O'Brien, the tone of which is very friendly to the European Powers, in regard to which he is determined to stand always not only in the right, but upon the defensive.

The pirate Sumter is reported cruising off Genoa. The U. S. Consul at Gibraltar protested against the assistance afforded her. The authorities, however, considered themselves bound to give such aid as was indispensable. The Sumter having sprung a leak, was permitted to effect the necessary repairs at the arsenal.

The worst fears have been realized in relation to the accident at the Hartley coal mines. None of the buried miners was found alive.

The weather off the coast has been very stormy. In the Irish Channel several vessels were wrecked, with some loss of life.

The dissatisfaction with Minister Fould's budget is apparently giving way.

The Paris Bourse, on the 24th, was buoyant. Rentes had advanced half per cent. closing at seventy and seventy-five.

The Opinions Nationale blames semi-official journals for their hidden Southern sympathy. It says England would become dangerous to France if America was weakened.

A rupture is anticipated between the Prussian government and the Archbishop of Posen, who, in a letter to the Minister of Public Worship, defends the national attitude assumed by his countrymen.

The Minister of State has declared in Con-

gress, that Spain would demand reparation from Mexico on account of the war. He also stated that Spain had received no official communication respecting any further intentions of France or England, and concluded by saying that Spain would fittingly support her interests in Mexico.

Parties in London holding bonds exhibit disquiet at the prospect of the ultimate amount of the public debt of the U. States. CALIFORNIA.

George Wilson, the actor, for the murder of his wife Lizzie has been convicted of manslaughter.

The Cariboo fever still rages at San Francisco. The Herald and Mirror in a column editorial advises people not to go there, and the Bulletin thinks that if those who do seek the mines survive the trip thither and back they will have gained hard experience which they ought to be proud of.

The steamship Moses Taylor will be placed at once on the Oregon and Victoria route.

On the 14th a rumor prevailed in San Francisco that Price in Missouri had surrendered with his whole force to Gen. Sigel. The Legislature of California then in session passed congratulatory resolutions and adjourned in honor of the event.

The martial law in California is not so serious after all. It is only intended to apply to soldiers, and does not conflict with the civil authority in other respects. Major Leonard is Provost Marshal of San Francisco.

The body of N. Nathan, a Prussian peddler, was found near Alameda on the 6th. He is supposed to have been murdered.

John W. Fairchild, a well known scenic artist, died at San Francisco on the 9th.

The steamer Nevada was sunk near Rio Vista, on the Sacramento River, on the 7th, by striking a snag. No lives were lost.

PROBABLE MURDER OF A WELL KNOWN

CARIBOONITE.—Yesterday afternoon it was ascertained that a Cariboonite, commonly known as "Jack of Clubs," but whose real name is John Giles, a native of one of the Western States of America, had been missing since an early hour of the previous evening. A story soon got abroad that the missing man had been murdered by Hydah Indians at a lodge on the Reservation, and his friends, to the number of about 100, armed themselves with revolvers and proceeded to the encampment, where they had commenced to examine the huts, when a posse of Police arrived and conducted the search. No article known as the property of Jack was discovered by the Police, but in one of the huts, situated near the water's edge, an old squaw, after close questioning, confessed that Jack's throat had been cut the night before in her house by a Hydah Indian, and the body taken away by the perpetrator. This woman and another squaw, known as "Jenny," said to be Jack's mistress, were arrested. Upon a closer examination a young Hydah was found stowed away beneath some boxes and boards in the lodge, and taken to jail. He made a statement that Jack came to the hut the night before in search of Jenny, whom he found drunk and went to bed with. At daylight yesterday, while Jack was sound asleep, a Hydah known as "Jim" crept softly up and stabbed him in the breast and subsequently cut his throat from ear to ear. When life had fled the corpse was carried away, but to what place the narrator said he did not know. After this statement had been made, it was ascertained that the Indian designated as the murderer had been locked up in jail since Sunday night last, so that it would have been utterly impossible for him to have committed the deed, and suspicion therefore pointed to the man in custody as the culprit. "Jenny" says she was drunk all night and does not remember having seen Jack at all. The friends of the missing man fully believe that he has been murdered, and tracks of blood having been discovered leading from the hut in which the deed is alleged to have occurred to the water's edge, we incline to the same belief. It is well known that the Hydahs threatened to revenge themselves for the murder of one of their tribe on Christmas night last by Jim Bennett, and it is feared that Jack has on that account been sacrificed. Jack, who was half-miner half-sporting man, was aged about 28 years and was well known to all old pioneer British Columbians, by whom he was much liked. Jack of Clubs Creek, at Cariboo, takes its name from him. He had resided in Victoria since November last, and only about a week ago had a difficulty with Jenny, for which he was arrested and fined £1. A further search will be instituted to-day.

INDUSTRIAL EXHIBITION COMMITTEE.—

At a meeting of the Committee last evening the Secretary and Manager read a report of the business of the Association since his appointment to the management. The accounts of the Committee were presented and Messrs. Barnaby and Tolmie appointed as Auditing Committee. The spar now at Esquimalt, which it was found impracticable to send to England, was ordered to be erected on Beacon Hill. The thanks of the Committee were tendered to Mr. Polwell for the assiduity, industry and great business tact he has brought to bear in carrying out the objects of the Committee, and he was requested to accept the sum of \$600 as a slight recognition of his services. The thanks of the Committee were given to Wells, Fargo & Co. for the liberality shown by them in transmitting to England articles intended for the Exhibition. The Committee then adjourned subject to the call of the chair.

ARRIVAL OF THE "W. L. RICHARDSON."

The schooner W. L. Richardson, Capt. Collins, arrived yesterday morning at 11 o'clock, from San Francisco, which port she left on the 13th inst. She brings 200 tons of freight and four passengers, and comes consigned to Southgate & Co. A portion of the freight is for Cariboo and will be taken to New Westminster by the schooner when the ice blockade is raised. The Victoria freight will be discharged to-day on Union Wharf.

ARRIVAL OF THE "SHEET ANCHOR."

The bark Sheet Anchor, Capt. Sayward, arrived yesterday morning in 11 days from San Francisco, which port she left on the 14th inst. She comes consigned to Pickett & Co., and brings one passenger and a cargo valued at \$25,000.

TRIAL TRIP.—The stern-wheel steamer Henrietta yesterday made a trial trip in the harbor. The machinery appeared to work well, and she made good time.

DEPARTED.—The steamer Enterprise, for the Sound, and the steamer Emily Harris, for Burrard's Inlet, left yesterday. Each vessel carried a small quantity of freight and a few passengers.

LIVE STOCK.—At Upland and one or two other farms that have heretofore escaped with slight loss of live stock, sheep have commenced to die within the past few days.

UPON THE 14TH.—The barks Gold Hunter, Union Forever, and Architect, were up at San Francisco for this port on the 14th inst.

LODGERS.—Four sailors, who had attended the concert night before last, were accommodated with lodgings at the station house.

Capt. Sayward of the bark Sheet Anchor has our thanks for late papers furnished on the arrival of his vessel.

The steamer Brother Jonathan was advertised to leave for this port and Portland on the 17th inst.

Capt. Jerry Collins of the schooner W. L. Richardson has our thanks for late papers.

CAMPENE and COAL OIL.—Curtis & Moore, Druggists, Yates street, received by the arrival of the W. L. Richardson a full supply of coal oil and camphene.

DR. HOSTETTER'S STOMACH BITTERS.—These

bitters are universally acknowledged to be a sur-

elevant and cure for Fever and Ague, Flatu-

ence, Heaviness of the Stomach, or any other like

affection. Their effect upon the system is most

marvellous; they give a healthy tone to the system,

relieve all morbid matter, and in fact thoroughly

cleanse the system of all impurities. In no case has

it been known to fail, but on the contrary, new vir-

tues have been found in its use. To those afflicted

with any of
